Introduction

Problem Statement

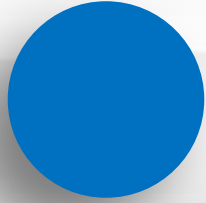

- People forget their clothes
- Health conditions
- Providing service to customers
- Services prices
- Other laundry services

Solution

MY LAUNDRY application which will be responsible for receiving and delivering clothes from the customer to the laundry. The application also displays the available laundries near the customer's location and reviews their services to the customer.

Objective

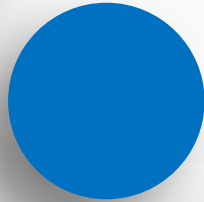

Making life easier by laundry

To finding a solution.

To meeting customer needs.

To providing job opportunities.

To increasing the productivity of laundries.
